Matthew Kelly's Greatest Place

DigiPen Institute of Technology in Redmond WA is my greatest place. It all started when I sent some ideas to Nintendo & they said, "These ideas are excellent, but we can't use outside ideas." Nintendo suggested that I check out DigiPen. I found out that DigiPen has 2-week summer workshops called Project F.U.N. to teach students how to make their own video games, animation, & robotics. I had so much fun that I've gone to DigiPen for the last 3 summers. I like to share my greatest place with others & I've made instructions on how to sign-up for Project F.U.N. on our LHS Web Managers Club website. I plan to attend DigiPen Institute of Technology, become a video game designer & work for my favorite game development company - Nintendo in Redmond WA.
